PRINTING PLAYBOOK

of PROVEN
MARKETING & ESSENTIALS

NOTHING SELLS LIKE PRINT

Grasped in quivering hands, it's *IMPOSSIBLE* not to look. The power of print draws *you in*. That's why they call it a *hook*.

Maybe no silver bullet. But a *golden ticket*, you could say. If Charlie opened merely an email, would he feel the same way?

A notable presence other marketing lacks. It stimulates senses. Visual, tangible and enchanting. Tactile marketing commences.

Fingertips, packed with sensors, busy transmitting the *feels*. We're *hardwired* to react with emotion. Print evokes, print appeals.

It's our pleasure to present this playbook. Ideas in each category. Three top picks, curated carefully: Favourite, fab, and fancy.

With *powerful print* under your spell, waiting for the right hands. An essential part of your mix, trust us, *more clients* you shall land.

We're here to *grow your business*. Let's part on a marketing hint. Of course, digital marketing works. But *nothing sells like print*.

BUSINESS STATIONERY

STATIONERY

When did you last write me a letter?

Many folk overlook the power of a simple posted letter. We all get less mail through our letterbox than we used to. And we all get more junk through our email inbox.

Yet letters are an effective direct mail piece. Either laser or inkjet print your message onto pre-printed letterheads yourself. Easy as that!

We not only offer printing for letterheads and compliment slips - we can even personalise notepads, envelopes and postcards so that you can stand out from the rest.

FOLDERS

Just how do you get their full attention?

Do you write proposals, send quotes or make estimates?

Truth is, yours is probably not the only one a client gets.

So how do you increase the chances of winning the work?

Following-up is really important of course. Quite often the fastest quote wins the day.

But there are other techniques. Send your proposal by email, but also post a hard copy. Stick it inside a folder.

Why? It shows you're serious and credible.

There's some psychology going on too. The act of opening the envelope and unfolding is a bit of theatre.

It's not some tiny flyer. It's a huge double page spread of 'you'. And they're holding you with both hands, you're blocking out other distractions, now you have their full attention... Close the deal.

LEAFLETS, INVITES, RACK CARDS, FLYERS, VOUCHERS... SOMETHING FOR EVERY PURPOSE

You say pamphlet, we say leaflet. You call it a postcard, we call it a rack card. They're all just rectangles and squares. So we've organised them together, by size.

Whether you want to hand out things at an event, post them through mailboxes or create stunning direct mail pieces, we've got all the options covered. From thin paper to ultra thick board.

Our most popular sizes and paper types are listed on the next few pages, starting from lightest to thickest. These are the best sellers, but if there's a stock or size not listed, please ask us for a quote.

BROCHURES, PRICE LISTS, & MENUS IN A RANGE OF DIFFERENT FOLDS & CREASES

It makes sense to fold larger leaflets down to smaller sizes. Breaking information down into smaller pages – or panels – makes it easier to digest.

We've put together our most popular folding styles, along with our bestselling paper types. But, and it's a big but... there are far too many sizes and styles to list on the next few pages.

If you don't see the shape, size or fold style you'd like, please let us know and we'll send you a quote.

FOLDED LEAFLETS, CREASED CARDS & GREETING CARDS

HALF FOLD OR CREASED

The simplest and most popular. Folded in half, either from the short edge or the long edge.

ROLL FOLD

Makes three panels or more, which are rolled into one another. Available on A4 and bigger leaflets.

ZIG-ZAG FOLD

A bit like a concertina. Have three or more folds on pieces A4 or larger really good for odd sizes.

CROSS FOLD

Folded in half, then half again, to make the leaflet a quarter its original size.

FOLDED LEAFLETS

Folded leaflets are so versatile, it's no surprise so many of our customers find them an essential part of their marketing. Whether they're being popped through letter boxes, inserted into newspapers, or propped up on the counter - full colour folded leaflets look great and are incredibly low cost.

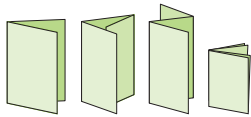

If you're looking for leaflet design and print to match your current branding, your local Nettl team will work with you to create quality folded leaflets you'll be proud to hand out.

Our most popular papers and sizes and starting prices are listed below. Please don't feel limited to these options, just ask us about our other options. No matter how weird the fold may be we promise we won't judge you.

BEAUTIFUL BOOKS

Whether you need a book for writing, reading, learning or something else entirely, we have a solution for you. We have 3 different ways to print your book, Offset, Digital or High Speed Inkjet.

Offset printing is by far the best quality print and is best for when you are printing a large number of books as then it becomes more cost-effective. It is best for printing full-colour brochures and catalogues that showcases your business.

Digital printing your book is commonly used when printing a lower number of books. The quality is great and digital has the most diverse range of stock options.

High Speed Inkjet printing is perfect for workbooks, educational resources, diaries, notebooks, community newsletters, and much more. Why? Price! Your book can be printed in glorious full colour for the price of black and white.

With our range of printing techniques, we can find the best solution to fit your needs and your budget, so let's chat.

1. Pick your paper

Depending on how you choose to print your book or booklet here are few things to keep in mind when choosing your stock.

Choosing an uncoated paper is ideal for when you're writing notes in the book. Coated paper is recommended for brochures and catalogues as it gives that luxurious feel.

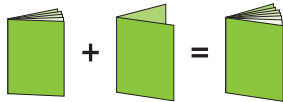

Here are our most popular papers:

100gsm Uncoated ○ D H

115gsm Coated H

130gsm Gloss Paper ○ D

130gsm Satin Paper ○ D

Key: ○ Offset D Digital H High Speed Inkjet

2. Pick your cover

Some people are happy with all pages in the booklet being the same paper. However, most opt to put a thicker cover on the outside. We have a range of papers and card to choose from for your cover.

Listed below are our most popular:
235gsm Coated front, Uncoated reverse board
300gsm Satin Art Board
300gsm Uncoated Board

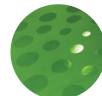

Spice up your cover with matt or gloss laminate, or add Spot UV gloss over matt laminate to make the cover pop!

Matt Lam

Spot UV

3. Pick your binding

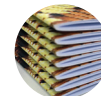

Perfect Bound - Pages and cover are glued together at the spine with a strong, flexible thermal glue. This binding is most commonly used for books.

Saddle Stitch - Saddle stitching refers to folded sheets which are stapled on the fold edge. Often used for booklets and brochures as the book can lay flat.

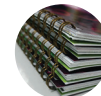

Wiro Bound - Used mostly in a commercial sense, wiro binding allows documents to lay flat when opened and will accommodate various paper thickness, inserts, tab dividers and cover options.

THINGS TO GIVE

Branded giveaways work so well in marketing. Cool stuff gets noticed instantly. But seeing a brand each and every day does magical things.

Create a long-lasting impression by sending useful branded gifts to your best customers. They'll get feel-good vibes each time they use it.

PROMOTIONAL ITEMS

PENS

A pen can be passed along from one person to another, why not personalise it with your logo to be recognisable?

UMBRELLAS

You can keep these in the office in case of a rainy day, or give to a customer if they are leaving and it's raining.

BAGS

Since plastic bags are no more, how about popping your logo on a reusable bag?

LANYARDS

These have many uses, such as around the neck, key tag, card holder and more, lanyards are a great product to promote your brand in many different places.

APPAREL

Have your team, promoting your brand everywhere and empower them with branded uniforms.

LOLLIES

Give people a sweet snack to remember you by, nothing like a sweet treat to brighten your day.

DRINKWARE

Bottles, cups, travels mugs, glasses, and thermoses all can be customised with your branding.

CHEESE BOARDS

A brilliant way to show valued customers the love, and they can use it all summer for get togethers!

A photograph of two men sitting in a room with dark wood paneling and a fireplace. They are sitting in colorful, patterned armchairs. The man on the left is wearing a maroon polo shirt and dark pants, and the man on the right is wearing a light blue button-down shirt and dark pants. They are both looking towards the camera. The room features several framed butterfly displays on the wall, a small table with a butterfly display on it, and a floor lamp. The overall atmosphere is warm and professional.

EXHIBITING HAS NEVER BEEN MORE AFFORDABLE

Gone are the days of lugging around heavy cases. Goodbye to magnetic bars and crying-trying to hang graphics precisely. Say farewell to posters which don't last a second show.

There's many reasons people are choosing fabric displays. They're lightweight and each come with a carrycase. They're compact – fit them in the boot of a car. They're robust – use them time and time again. They look great – a single continuous graphic in eye-popping High-definition. They're great value – they cost much less than you'd think.

Each display is a frame, which clips together. Then stretch a 'duvet' graphic over. Up in minutes, down in half that time.

HOW OUR FABRIC DISPLAYS WORK...

Fabric Displays are made up of two main components - a strong, lightweight, tubular aluminium frame and a printed fabric cover.

The 'Stretch' fabric cover is printed and designed to fit snugly over the frame, and is secured at one edge with a zip fastening.

These 'next generation' displays deliver impact and completely eliminate the problem of visible join lines on larger displays.

Fabric display frames utilise a simple 'click together' mechanism.

Each part is numbered for easy identification and quick assembly.

Stretch the fabric graphic over the frame and zip up.

All fabric display frames come with a carry bag for easy transportation and storage.
